

Faculty of Technology and Engineering

Chandubhai S. Patel Institute of Technology (CSPIT)

Department of Computer Science & Engineering

Date: / /

Laboratory Manul

Academic Year	:	2026-27	Semester	:	3 rd
Course code	:	ITUE203	Course name	:	WEB DEVELOPMENT FRAMEWORKS

Practical - 1

PROBLEM STATEMENT :

Initiate the semester-long StudentHub portal by identifying the problem scope, user roles, key modules, navigation flow, and minimum 10 pages.

Create a sitemap, low-fidelity wireframe, project folder structure,

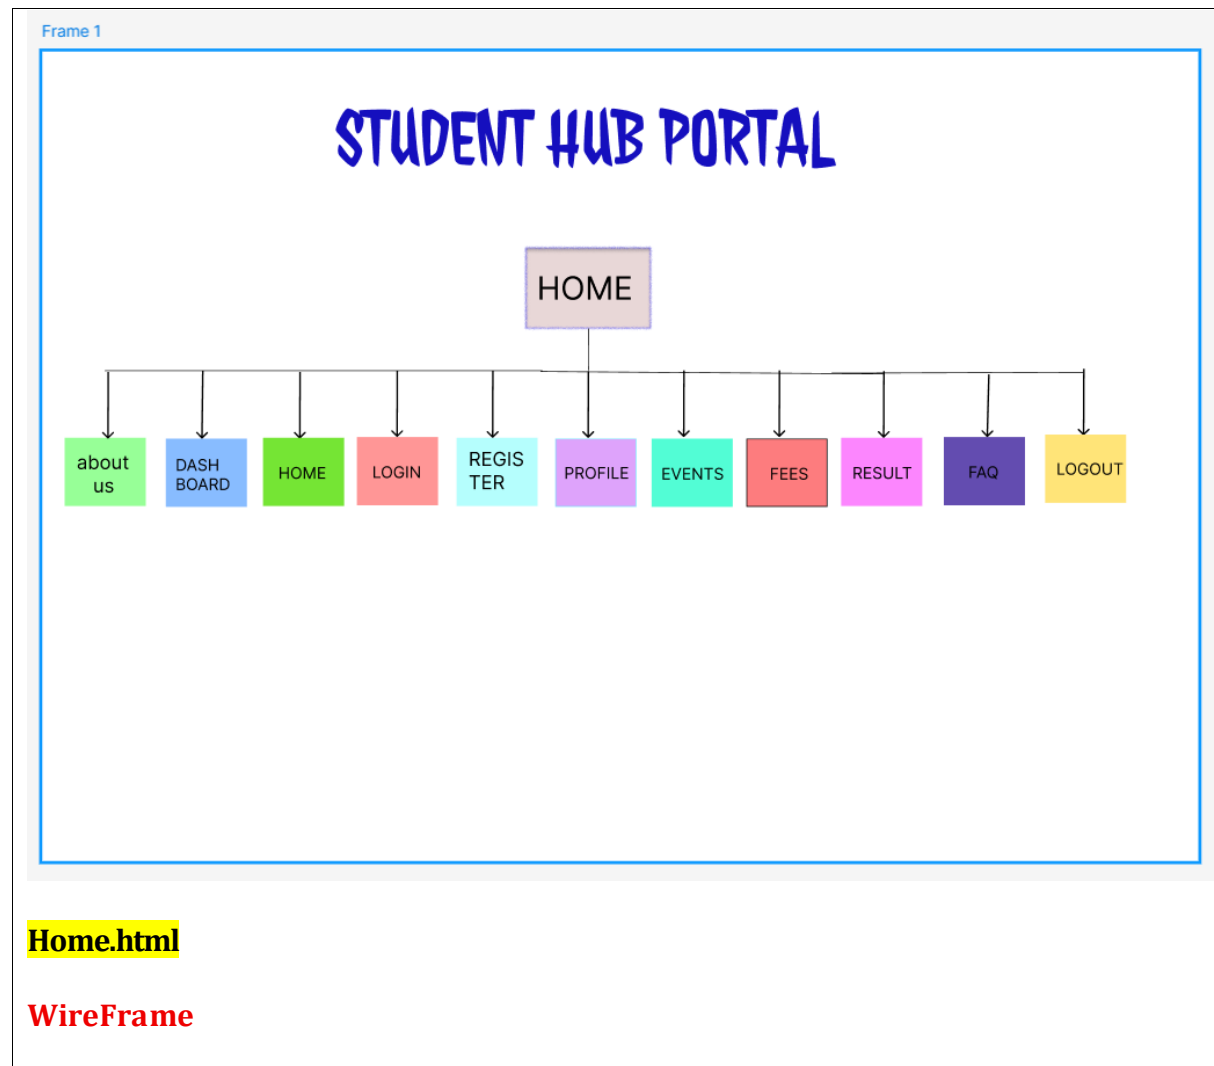

README file, and GitHub repository.

Objective :

To initiate the development of a semester-long StudentHub Portal by analyzing the problem requirements, identifying the target users and their roles, designing the key functional modules, creating a clear navigation flow, and planning a minimum 10-page website. The project also aims to establish a structured development workflow by preparing a sitemap, low-fidelity wireframes, project folder structure, README documentation, and a GitHub repository for version control and collaborative development.

Welcome to StudentHub

StudentHub is an online portal designed to help students manage their academic activities. Students can register, log in, view their profile, check fees, access results, and stay updated with university events and notices.

Student Services

Student Registration

Create a new student account.

Student Profile

View and update personal information.

Fees Details

Check semester fee payment status.

University Result

View semester examination results.

Events

Check upcoming college events.

Notice Board

- Admissions Open for 2026-27
- Semester Examination Schedule Released
- Hackathon Registration Started
- Library Timing Updated
- Sports Week Coming Soon

Latest News

- Online registration is now available.
- Mid-Sem examination dates announced.
- Web Development Workshop on Friday.

ABOUT

About StudentHub

StudentHub is a student management portal developed to make academic activities simple and convenient. It helps students access important information anytime and anywhere.

Our Mission

To provide students with an easy, secure and user-friendly platform for managing academic information.

Our Vision

To create a smart digital environment where students can easily access all academic services online.

Features

- Student Registration
- Secure Login
- Student Profile
- Fees Information
- Exam Results
- College Events
- Notice Board

StudentHub provides quick access to academic information, saves time, improves communication and keeps students updated with the latest announcements.

About StudentHub

StudentHub is a student management portal developed to make academic activities simple and convenient. It helps students access important information anytime and anywhere.

Our Mission

To provide students with an easy, secure and user-friendly platform for managing academic information.

Our Vision

To create a smart digital environment where students can easily access all academic services online.

Features

- Student Registration
- Secure Login
- Student Profile
- Fees Information
- Exam Results
- College Events
- Notice Board

Our Vision

To create a smart digital environment where students can easily access all academic services online.

Features

- Student Registration
- Secure Login
- Student Profile
- Fees Information
- Exam Results
- College Events
- Notice Board

StudentHub provides quick access to academic information, saves time, improves communication and keeps students updated with the latest announcements.

Learning outcome :

- Learned how to create a wireframe for a website.
- Understood the importance of wireframes in website planning.
- Learned how to design a sitemap for proper website navigation.
- Understood the structure and flow of a website.
- Improved website planning and design skills.

Learned to create a responsive website using HTML, CSS, and JavaScript.
Improved web page design and layout skills.
Learned how to connect multiple web pages using hyperlinks.
Understood the use of forms, navigation bar, and different HTML elements.
Improved problem-solving and debugging skills during project development.
Learned to use GitHub for uploading and managing project files.
Gained experience in teamwork and project management.
